THADDEUS BRIGGS

THADBRIGGS.COM ◇ 303-304-1192 ◇ THAD.BRIGGS@GMAIL.COM

Can a person be both left brain and right brain? With a background in analytics, but a passion for art and technology, I like to think so. In a previous life, I flexed my analytical muscles at DirecTV. There I found creative ways to track and improve customer experience.

Today, my left brain drives my user-centered approach to web development while my right brain allows me to build beautiful, innovative websites.

- Analytical
- Creative
- Avid Sports Fan
- Golden Retriever Owner
- Table Tennis Champ

2018
10Up :: Front End Engineer
- Developed components, features, and page templates for multiple 10Up clients
- Collaborated with various project managers, designers, back end engineers, and external clients across a large number of projects
- Met WordPress VIP's strict coding standards as well as a11y and I18n guidelines
- Expanded my coding skills related to JavaScript/ES6, React, and CSS Grid Layout

2016 - 2018
Lucid Agency :: Web Developer
- Modernized the development process by implementing version control and leveraging build tools such as NPM, Gulp, and SASS
- Created a custom WordPress starter theme that facilitates modular development
- Refined internal processes to streamline projects and institute quality standards
- Developed multiple custom WordPress sites for internal projects and new clients
- Mentored junior developers and conducted internal code reviews

2014 - 2016
Zenman :: Senior Front End Developer
- Lead developer of 15+ custom WordPress sites/themes
- Modular development utilizing OOCSS/SASS and the BEM Methodology
- Conducted PO reviews and testing to ensure deliverables met quality standards
- Effectively managed project expectations, timelines, and client communications
- Refined internal processes to streamline projects and increase ROI
